

RE-SERVICES

Restart your machine!

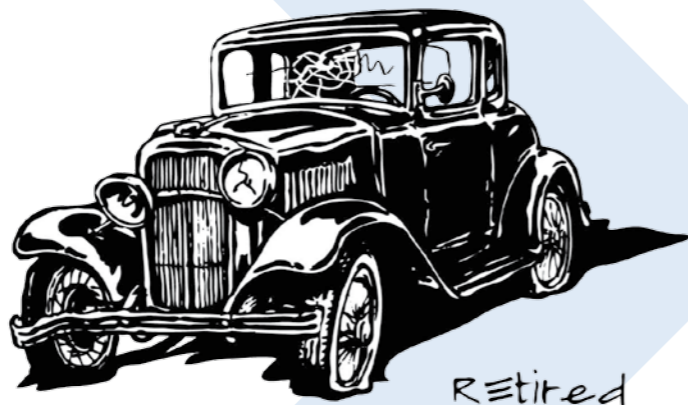

Originals

Quality and class never go out of commission

Increase the availability of your ERWIN JUNKER grinder with our extensive range of RE Services.
Now is the chance to breathe new life into your machine.

RE Services' proven technology lets you attain top quality and get maximum performance for your investment.

Plus: RE Services with manufacturer's warranty.

REbuild

Replacements / Overhauls

Have your ERWIN JUNKER grinding machine fully overhauled with **REbuild** and significantly enhance its value. **REbuild** offers dependability and the highest certified quality that guarantees a maximum return on investment.

REbearing

Spindle repairs

REbearing - fast and on time. Faulty grinding spindle? No problem – with **REbearing**, JUNKER is able to repair your faulty spindle within 48 hours, including guarantee.

REtrofit

Retrofits / Upgrades

With **REtrofit**, you can quickly turn your outdated grinding machine into the grinding machine of tomorrow! This service practically transforms your grinder into a new machine (but without that new-machine price tag!)

REtool

Retooling

Expanding your product range? Don't replace your ERWIN JUNKER grinder when you can retool it. **REtool** lets you cut costs and enhance your competitive edge.

REsale

Trading

Buy or sell low-priced used machines with **REsale**. But that's not all **REsale** has to offer! We'll prepare your machine for sale so that the buyer gets a near-new quality grinding machine.

Rebuild

Replacements / Overhauls

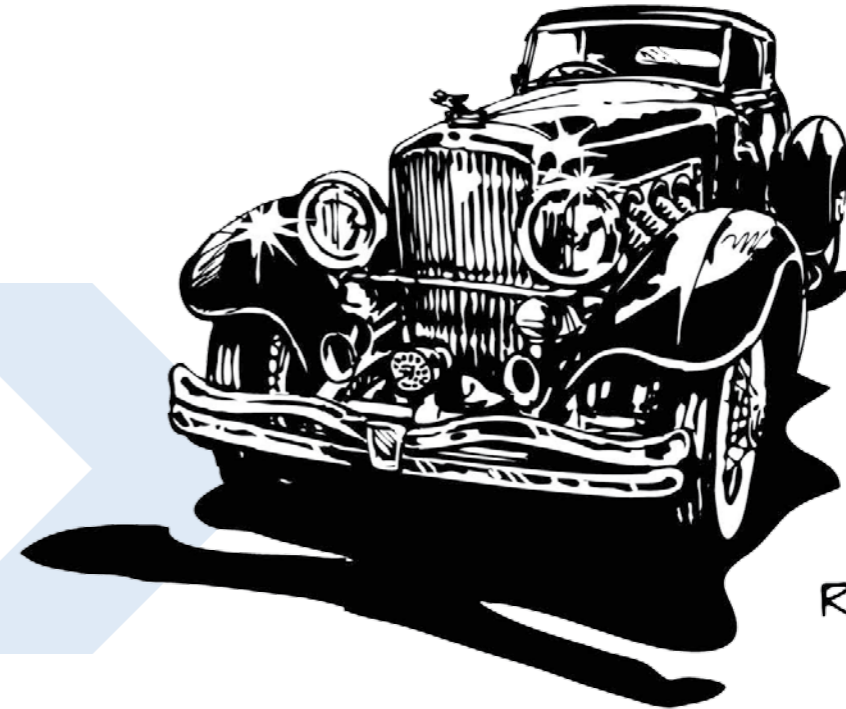

Increase value now
